Program objectives

- Create **tailored development regulations** to address building form, uses, and density that reflect community values
- Create **new Zoning Districts** to correspond with the new Land Use Designations (e.g., Mixed-Use and R&D Flex)
- Create concise and **understandable rules and regulations**

Program Timeline

PROGRAM LAUNCH

Kicked off Our Pasadena- Putting the Plan in Motion by hosting three citywide open houses to introduce the program and solicit broad input about community values and concerns.

Purpose

Educate the public about the program and opportunities for participation. Initial feedback provided a "temperature check" of the community.

WORKSHOP #1

The first workshop's objectives are to refine the General Plan vision, goals, and policies as they apply to each unique Specific Plan Area. Discuss desired land uses, density ranges, and general urban form.

Purpose

Feedback will help in developing potential alternatives for each Specific Plan area.

2018

2019

WORKSHOP #2

The objectives for the second workshop are to present land use and urban form alternatives in response to input received, as well as existing conditions analysis, and economic analysis.

Purpose

Feedback will inform the development of a draft Specific Plan document and crafting of Zoning Code changes for implementation.

2020

WORKSHOP #3

The objective for the third workshop is to present the draft Specific Plans, including draft goals/policies, densities, urban design guidelines, land uses, regulatory schemes, and potential implementation strategies.

Purpose

Comments received will assist in refining the draft document that will be presented to Design and Planning Commissions and City Council.

2021

ADOPTION PROCESS

City will present the Specific Plan document and proposed Zoning Code changes to the Design and Planning Commissions for their recommendations, and ultimately the City Council for final approval. Public hearings will be held at each step.

Purpose

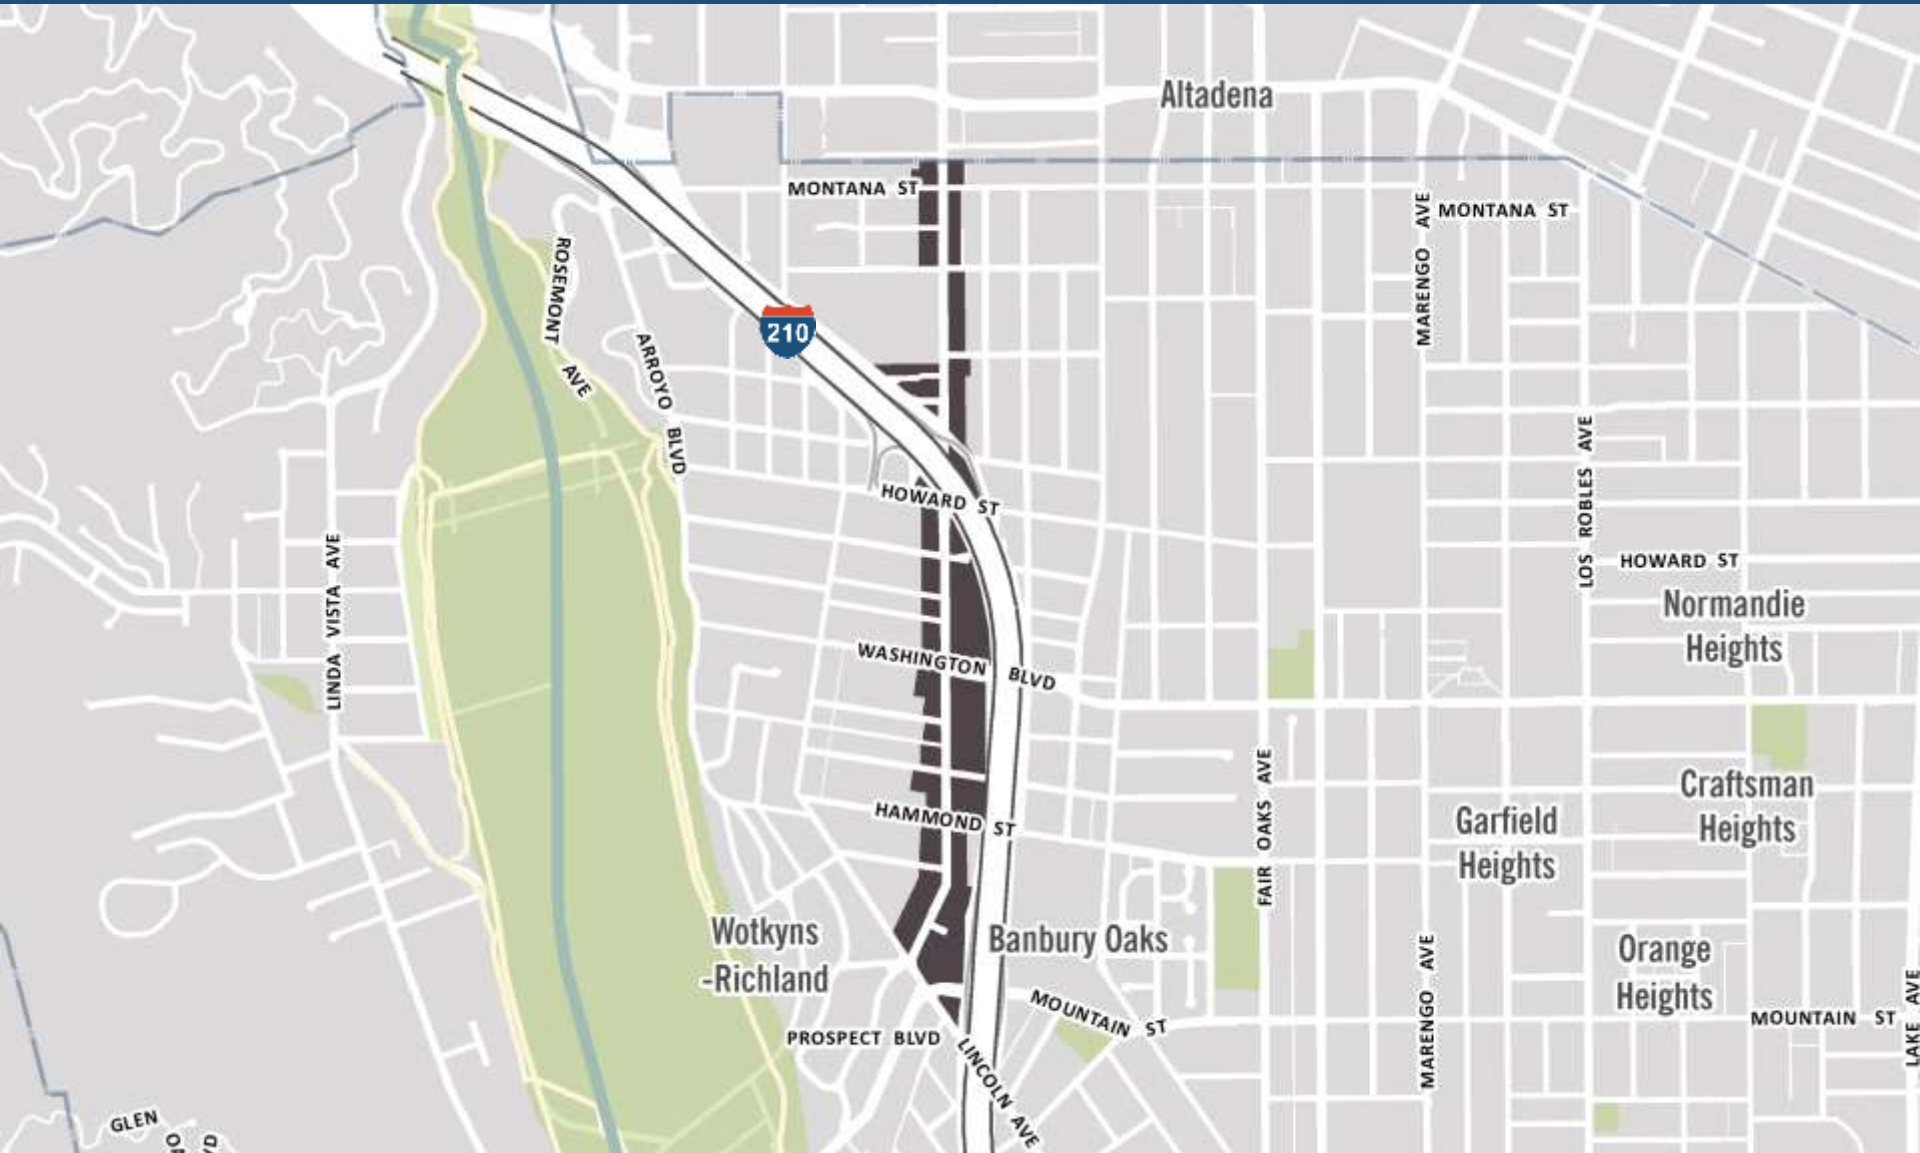

Adopt the Specific Plans and corresponding changes to the Zoning Code so that future development in the City reflects the community's values and is consistent with the General Plan.

PLANNING FOR TOMORROW

What is envisioned for this area?

General Vision for Lincoln Avenue

Variety of housing options

Provide new opportunities for all types of housing including multi-family and mixed-used development.

Economic Revitalization

Facilitate opportunities for new development that provide neighborhood serving uses and employment opportunities.

Neighborhood compatibility

Support new development that is compatible with adjoining residential neighborhoods.

Enjoyable environment

Enrich the pedestrian environment through well designed projects and pleasing streetscapes.

Refining the Vision

General Plan: *Housing*

Specific Plan: *Mid-Rise*

SMALL GROUP DISCUSSION

Let's talk about the details

Discussion Objectives

- Refine the General Plan’s policies for land use and community character as they specifically apply to the Lincoln Avenue Specific Plan area
- Hear your ideas about how we can develop the neighborhood’s identity
- Understand what types of housing and commercial uses would be most appropriate for the corridor
